

Press Release

Yet two more exclusive Residential Towers of 2-BHK flats launched at Nahar's Amrit Shakti

Customers rushing in huge numbers to book the 2-BHK flats in two exclusive residential towers, Water Lily and White Lily in June this year, was nothing but a repeat scenario of May 2009 experienced at our sales office when we had launched similar flats in four residential towers. The similarity is astonishing in that all the flats were sold off in record number of days.

Mr. Sukhraj Nahar, Chairman, Nahar Group said "In last May when we offered four exclusive 2-BHK residential towers, all the 620 flats were sold off in merely 27 days of our announcement. The persistent demand for similar flats from a cross-section of customers, many amongst them from the nuclear family segment, has prompted us to plan two more residential towers of exclusive 2-BHK flats at our residential complex."

The two 15-storeyed residential towers, which are currently under construction, will have apartments which will be uniquely configured, offering great views on all sides, with premium flooring, international style modular kitchen cabinets with granite platform and piped gas connection, designer bathrooms and finest of fittings, finishing & accessories matching the high standards of luxurious living. The towers will have a grand air-conditioned, furnished entrance lobby with landscaping and water bodies, and will have exquisitely designed lift lobby on every floor.

Ms. Manju Yagnik, Vice Chairperson, Nahar Group said "The high quality construction and the world-class facilities and amenities provided at the eco-friendly Nahar's Amrit Shakti have already caught the imagination of home-seekers. Our new offering of 2-BHK flats is ideally suited to meet the growing demand especially from the younger generation."

What's more is that Water Lily and White Lily project is supported by HDFC and approved by all leading financial institutions. A real boon to our customers!
